

High mold release performance that promises improved productivity

Proposed by a release oil specialist manufacturer

Release Oil for Baked cake and Confectionary

Baked confectionery that has high sugar content and high oil content such as butter does not easily peel off from the mold, and requires high performance as a release oil. As a release oil specialist manufacturer, we Yokohama Oils & Fats Industry Co., Ltd., will contribute to improving the productivity of your production site by release oils with excellent performance.

Excellent performance and ease of use
